Union Trust Company, Detroit, Registrar and Transfer Agents

MEN OF PROMINENCE and those who feel the importance of placing their investments where the possibilities for large returns equal that formerly presented to investors in the PAIGE-DETROIT, WILLYS-OVERLAND, HUPP MOTORS, SAXON, and others, are now buying the stock of the HACKETT MOTOR CAR COMPANY.

On account of our announcement nearly two weeks ago of the sale of these shares, our office has been flooded with inquiries and our entire force working day and night endeavoring to meet the public demand for subscription in these shares, and we now have only a limited amount of the shares for subscription.

The demand is so great in Chicago and other cities that stock will be oversubscribed, as indicated by our sales to date.

Those desiring to purchase these shares at par value, \$10.00 should place their orders promptly.

We believe this stock will make an unusually large profit for the investors because of its low capitalization, its large earning power, because it is building an excellent car and orders on hand for nearly \$2,000,000 worth of the cars at present. Because the management is conservative, experienced, aggressive and thoroughly high class. Because it is equipped with a modern up-to-date plant for manufacturing 5,000 cars in 1917.

We reserve the right to accept or reject any orders at the present price, as the amount of this stock is limited.

Orders may be telegraphed or telephoned at our expense.
